

The G.R.E.E.N. Foundation was founded in September 2003 and located in Orange County, California. We are a community-based organization serving African Americans who reside in Orange County, California. Our mission is to educate African American's in the areas of family concerns, economic empowerment and health education. The G.R.E.E.N. Foundation partners with many non-profit organizations, hospitals, health professionals and local groups to gather the necessary resources to educate and empower African Americans through a strong supportive network.

In just one short year the organization was awarded subcontract funding from Community Compassionate Funding through the federal government. The additional funds enabled the organization to expand services to Oakland, California, Detroit, MI and Washington, D.C.

For the last four years The G.R.E.E.N. Foundation served 45 grassroots and community/faith based organizations. We participated in over eight Health Education Forums; twenty-five Breast Health presentations and partnered with numerous local and national organizations.

To best serve and assist the African American population in Orange County, The G.R.E.E.N. Foundation implements and supports marriage education and family strengthening programs; workshops to develop skills in grant writing, fundraising, corporate donations, and in-kind services; specialized trainings in development and implementation of programs, curriculum development, outcome evaluation & measurement, maintaining commitment and development of a support group; as well as health education in the areas of breast health, nutrition, obesity, diabetes, anti-tobacco, HIV/AIDS and various prevalent diseases that affect African American's rate of mortality.

G.R.E.E.N. is an acronym that represents the core goals and values of the foundation. "G" represents gathering and collaborating with other organizations for the purposes of outreach; "R" represents resources and research sought for funding of projects and programs; "E" represents education in the form of seminars, trainings, forums and written materials to encourage life and behavior changes; "E" represents economics, whereby strategic partnerships are built between corporations and entrepreneurs at "Connecting the Dots" monthly networking meetings; and "N" represents networks that are established and strengthened through collaborative efforts, all of which enhance and enable success and quality of life for Orange County, California and Northern California African American communities.

The G.R.E.E.N. Foundation is dedicated to providing education to African Americans as it empowers individuals, organizations and communities to reach their full potential.

## **Company Profile: The G.R.E.E.N Foundation**

---

The networks established by The G.R.E.E.N.
